TECHNICAL SKILLS

- Java, C++, C#, JavaScript
- HTML, CSS, ASP .NET Web Applications
- Node.js, Flutter, MVC Core, WCF Service
- Mobile Applications development
- OOP, debugging, testing
- SQL Database Management
- Git proficiency
- Agile development methodologies

SOFT SKILLS

- Problem-solving
- Analytical thinking
- Time management
- Teamwork & collaboration
- Communication skills

CERTIFICATIONS

- **AI in the 4IR** UJ (2022)
- **Intro to CSS** CoddyTeam (2024)
- **Elements of AI** MinnaLearn (2025)
- **Cybersecurity** MinnaLearn (2025)

AWARDS

- **UJenius Top 1% (2022)**
- **Moshal Scholar**

About Me

Graduate in BSc IT (Computer Science & Informatics) from the University of Johannesburg. Passionate about building efficient, user-focused software solutions with experience in developing web and mobile applications. Adaptable, analytical, and detail-oriented, with strong problem-solving skills and a commitment to continuous learning. Seeking an opportunity to contribute to impactful software projects and grow in a modern development environment.

EDUCATION

BSc in IT: Computer Science and Informatics

2022/02 - 2025/11

University of Johannesburg

- Completed degree with coursework in software development, data structures and algorithms, databases, assembly language, visual programming, mobile & web application development, and computer networking theory.

National Senior Certificate

2017 - 2021

Adams College

- Achieved outstanding results across a diverse range of subjects, demonstrating a strong aptitude for learning and excelling in various disciplines. I passed with an aggregate of 81% having 3 distinctions and no subject less than 75%.

VOLUNTEER WORK

Oct 2024 - Nov 2024

Innovative for Health Hackathon, Moshal Program

Developer

- Designed a tech-driven solution for healthcare innovation in a fast-paced, team based environment.
- Gained experience in agile teamwork, solution pitching, and rapid prototyping.
- Proven ability to learn quickly and adapt to new situations.
- Skilled at working independently and collaboratively in a team environment.

KEY PROJECTS

Jul 2023 – Oct 2023

Vite Clothing Webiste

- **Tech:** ASP.NET Web App, WCF Service
- Second year group project where I contributed to designing and developing the user interface and integrating the frontend with the backend. Supported product display, interaction flows, and smooth communication between frontend and backend components.

Feb 2024 – Oct 2024

Guardian Eye – GBV Reporting System

- **Tech:** ASP.NET web app, MVC Core, .NET MAUI (Mobile)
- Collaborative final year project focused on GBV reporting. I worked on creating responsive web and mobile interfaces and integrating them with backend services for secure reporting, authentication, and case tracking.

Jul 2025 – Oct 2025

CarBook – Car Rental System

- **Tech:** Flutter (Mobile), Node.js, MySQL, JavaScript (Web)
- Individual 4th year project where I created a multi-platform car rental application supporting booking management, vehicle listings, and real-time data syncing across mobile and web platforms.
